

RIDE & SEEK

Join the Pursuit

Your Next Viral Series Starts Here

Ride and Seek isn't just a mobile app, it's a real-world adventure built for content. We turn cities into playgrounds, players into hunters, and creators into the heartbeat of the chase. With retro visuals, real-time gameplay, and jackpot mechanics designed to spark hype, this is the kind of story your audience doesn't just watch, they follow, share, and join.

We're looking to collaborate with video creators who want to turn this into something unforgettable. Whether it's a cinematic teaser, a live hunt, behind-the-scenes breakdowns, or branded twists, We are hiring for content that brings the game to life. You'll have creative freedom, early access, and a chance to embed your channel into a movement that's already turning heads.

Let's make something that gets chased. Ready to ride?
